## Message from the Chairman and Chief Executive

Many of our beneficiaries and loyal supporters will have read about the recent conviction of Andrew Gallie who stole a considerable sum of money from The Not Forgotten Association.

Gallie worked for the Association for a short period of time during which he betrayed our trust, his position of responsibility and the very core values expected from an ex-Servicemen and someone working in a charity. By fraud, guile and deceitfulness he stole money from us, his actions were clever and calculated, and despite being a gambling addict, his behaviour is inexcusable. Gallie has said he needs help, he has been given an opportunity by the Court and we hope he gets the treatment he clearly needs.

We have worked with our new auditors and the Charity Commission to review our governance and procedures and, although they were found to be appropriate, we have enhanced them in a few areas. Incensed by Gallie's actions, the trustees and staff are determined that not one penny of the money stolen comes from those who have generously donated to us. All losses have been covered from reserves and we are now doing whatever is necessary to recover the stolen funds through victim compensation and our own insurance.

As a small and loyal team we have been greatly hurt by this betrayal but it has galvanized our determination to do more for those who rely on and need our help. Not one of our activities has been affected and we have continued to deliver a full and successful programme throughout the summer. Our priority as an organisation, which has remained constant for over 97 years, is to continue to support the wounded, injured and sick serving personnel and veterans of the Armed Forces community.

It is only with the support of our friends, volunteers and supporters that we are able to help so many who have served their nation and taken a knock. All funds donated to us are safe and, be assured, are being used to support those who deserve our help.
